INTRODUCTION TO EDUCATERING

Dear Parents and Carers,

We are delighted to be working in conjunction with **Educatering** for our upcoming summer menus.

Educatering is a complete school food and catering solution, focused on providing high-quality, nutritious, locally sourced, fresh food to pupils through delicious, child-led menus and meals. They will be supporting our kitchen team in introducing some exciting new dishes, which we hope your children will enjoy.

Educatering is a Devon-based, family-run business devoted to making a positive difference to school food. If you would like to find out more about them, please visit their website: <https://www.educatering.uk/>

Our summer menus will be available from **Wednesday 1 April**, at which point you will be able to select meals for the final term of the academic year. There will be no increase to the cost of hot school meals for the remainder of this academic year; however, from **1 September**, the price will increase to **£3.00 per meal**.

Educatering will also be providing sample items during **parents' evening**, and we warmly welcome you to come along and try some of the new dishes that will be featured on our summer menus.

Kind regards,

St Mark's C.E. Primary School
