(During topic)

What can this wall tell us about people's skills and determination?

Can you think of a time when you found something difficult but kept going?

What makes something or someone strong? Is it their size or something else?

What does the wall tell us about working together as a team?

What projects could you take on that would make you feel proud at the end?

What impact to the local area has this had since the start of its history?

How does this affect other parts of China?

If you could meet people who built it, what would you ask them?
